

UNIONTOWN AREA SCHOOL DISTRICT

INSECT STING INFORMATION AND AUTHORIZATION

The standard school district procedure will be followed for anyone stung by a bee or an insect:

- 1. Remove Stinger.
- 2. Apply paste of baking soda and water.
- 3. Apply ice.
- 4. Observe the student closely for 15-20 minutes.

Please check the status of your child's problem.

- My child has a localized reaction (swelling at site of sting).
- My child has a severe reaction. Describe reaction below in "Comments" Section
- My child has begun desensitizing treatment (allergy shots).
- My child is on maintenance doses of desensitization treatment.
- My child has not been desensitized.
- Epi-Pen? or Emergency Epinephrine?

Please check the procedure to follow:

- Follow above routine school district policy for bee sting.
- Notify parent at once.
- Give medication as prescribed by child's physician. **(THE PARENT MUST PROVIDE THE MEDICATION AND WRITTEN ORDERS FROM THE PHYSICIAN.)**
- Rush the child to the nearest medical facility immediately if necessary.
